About us
Healthwatch Sheffield wants to make health and social care services better.

Health care services are things like:

- Doctors

- Dentists
- Hospitals

- Pharmacies

Social care services are things like:

- Care homes

- People who come into your home to care for you

We would like to hear from you if you have used any of these services.
We would like to know:

- What was good
- What could have been better

We will then tell the people in charge of the service what we have heard.

This helps the people in charge know what is working well and how they can make things better.

Healthwatch Sheffield can also give you information about health services.

We can also tell you who you need to speak to or where to look for help.
