

Tell us what you think about health and social care: Tinsley project

Healthwatch Sheffield helps people have a say in what health and social care services are like in Sheffield. We share what people tell us about the NHS and social care with decision makers, so they know how to make care better for people.

We are doing research into what people in Tinsley think about the **NHS and care services** they use.

We would like to speak to people who **live in Tinsley**, as well as **relatives and carers** of people who live in Tinsley.

This involves **having a chat** for around 30-60 minutes at a place of your choosing or over the phone.

What you say will be **anonymous**, and you can have a relative or friend with you. We will give you a **£10 voucher** for your time.

Want to know more or arrange a chat?
