

Test Bed Advisory Group (TAG) Values

Commitment

We are all committed to being a TAG member and changing health and social care for the better.

Respect

We are respectful to each other and those we work with.

Equality

We treat all members as equals; everyone's opinion carries equal weight. We should be treated as equals by those we work with. We aim to promote equality in our work.

Diversity

We celebrate the diversity of our group members and aim to enrich our work by having discussions involving diverse opinions. We aim to consider the needs of the diverse local population in our work.

Independence

We are independent from the NHS and social care sector and make decisions independently.

Transparency

We are clear, open and honest in our work and expect the same approach from those we work with.

The acronym '**CREDIT**' is the seventh value. This reflects that the contributions of individual TAG members and the group as a whole should be given credit when it is due. We will credit and value the contributions of the people and organisations we work with.
